Agenda for Cross Match meeting 26

and 27 of February 2015

Preliminary comments/constraints

- Need to confirm the availability of someone from WP940 who could provide their inputs
- X. Luri only available on the 26th (TBC)
- Should be mostly discussions, few slides to introduce the topic or just walk-through the distributed documents
- All indicated times are indicative. Specially on the technical aspects, there is enough time so discussions may be extended as needed.
- webex connection will be available.

Thursday 26 of February

Morning: Organization, requirements, tasks to be done

- 9:30 - 9:40 Intro + Overall R1 plan [XL, GGA]
- 9:40 - 9:50 Confirmation of team responsibilities as described in XL-037 [XL, All]

http://gaia.esac.esa.int/dpacsvn/DPAC/CU9/docs/General/nonECSS/GAIA-C9-TN-UB-XL-037/

- 9:50 - 10:20 Inputs, constraints from WP940 [TBC]
    - Speaker TBC, preliminary list of topics
        - Scientific requirements,
        - Additional/join(with WP974) validation of the XM planned by WP940
        - WP944 priorities, which catalogues are needed first?
        - Time constraints
- 10:20 - 10:40 Break
- 10:40 - 11:50 Operational activities and execution flow: XM Tasks to be done from MDB01 to catalogue release
    - 10:40 - 11:10 WP974 tasks: statistics collection, algorithm tuning, validation, data samples needed [PM]
    - 11:10 - 11:40 WP930 tasks: XM execution, extraction, transfers [JSB]
    - 11:40 - 11:50 Need of environment for cross match activities at ESAC? [ALL]
- 11:50 - 12:50 Gaia development roadmap to R1: Activities to be done fron now till the end of 2015 [GGA-ALL]
- 12:50 - 14:00 Lunch

Afternoon: TGAS and start of technical discussions

- 14:00 - 15:00 TGAS discussion [XL+ALL]
    - Brainstorming on XM approach for TGAS (use of IGSL match, externally

produced XM)
- Catalogues to be included in the release
- Detailed roadmap/schedule

Technical topics

- 15:00 - 16:00 Analysis of tests done at ESAC [PM-JSB]
    - description of the tests results (JSB) feedback on the provided output [PM]
- 16:00 - ... Test proposed in PM-005: description of proposed XMatch algorithms per external catalogue type [PM+All]

Friday 27 of February

9:30 ... Continuation of technical discussions from Thursday

- Technical discussion on algorithms integration [JS+ALL]
- DM review [ALL]
    - DM for TGAS
    - DM for R1
