INAF-OATs IA2 status

- Some progress on the "standalone" TAP service

  – Auth&Auth tests

    - Some issues with Glassfish and certification

- Partecipation and discussion at IVOA level on developments for TAP and ADQL specifications

- Improvements in type mappings and other fixings on the general TAP application

Plans

- Continue on
  - Keeping track of IVOA chnages in the spec
  - Preparing standalone and VM solutions to be provided to ROE for collaboration
  - Progress on software documentation
    - Kind of lack of it currently
